**Feature Location**

- <http://www.ezwebplayer.com/Pages/Channels/Default.aspx>

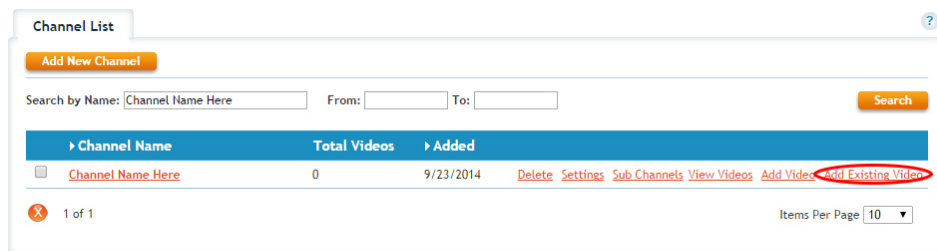

## Getting Started

Once you have created a channel, you can start to add existing videos to it using the Add Existing Video option per channel.

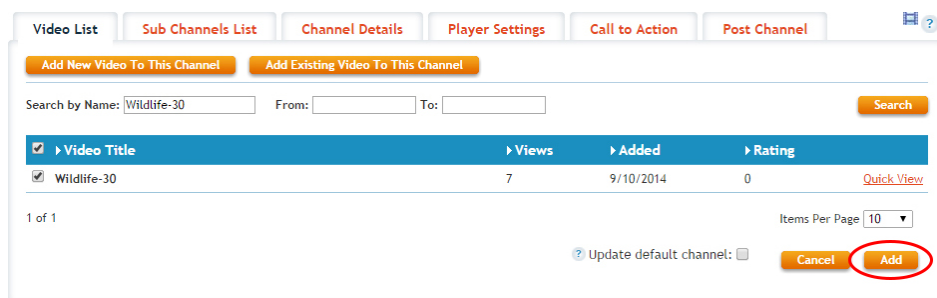

**Step 1.** Click on the **Channels** header navigation link.

**Step 2.** From within the channel list, click the option to Add Existing Video.

**Step 3.** You will be taken to that channel's Video List tab and you will be shown a list of available videos you can then attach to the channel. Click on the video's check box to select it.

**Step 4.** Click Add to add your selected videos to your channel.
